"I think it better than any I have used before. It will pay well to use it The sheep are all the better, and the wool is much improved.—G. STEVENS, Hosé, Leicestershire.
"I have dipped thousands of sheep in non-poisonous dips. I never use a poisonous one. I like Gillard's the best."—J. BRADLEY, Hoveringham, Nottinghamshire, in letter to *The Field*.
"Gillard's Sheep Dip is certainly the best and cheapest that ever I have used."—JNO. SHARP, Rudmile, Leicestershire.

NEWSPAPER REPORTS:
Messrs. Parry & Co. sent us a sample of canned corned beef, put up by McCall & Co., at Tuyu, in this province. We have tested and tasted the same, and found it fully equal in all respects to the celebrated American canned corned beef, of which one house imported in one year 208,000 cans. The quality of the beef, and of tongue, in its cooking and preservation, leaves nothing to be desired, while naturally the price is much lower than the imported article; and, besides, we welcome the enterprise all the more heartily because it is of home production. We shall be pleased when we supply our own preserved meats and fruits, our own lard and butter, in fact, everything we consume, excepting teas and spices.—*The Herald*, April 2, 1881.
We are glad to see that the verdict of our colleagues in reference to Messrs. Parry's Argentine Corned Beef, made by McCall and Co., is the same as our own—incomparable. It speaks volumes for the progress of the country to see Argentines appreciating corned beef, which, a few years ago, was looked on here as quite a plebeian dish. The man who can appreciate corned beef, sliced to the thinness of a wafer, with a dim smear of Colman's mustard on it, must have his stomach, if not his heart, in the right place.—*The Standard*, April 5 1881.
LAS CARNES CONSERVADAS.
Junto con la carta de los Sres. Parry y Ca., que ayer publicamos, recibimos dos tarros conteniendo el uno *corned beef* y lenguas el otro. Probamos de ambos, como tuvimos el gusto de anunciar al publico que lo hariamos, y tuvimos de gusto mayor, si cabe, de encontrar las conservas esquisitas.
Especialmente la carne (*corned beef*) puede ser recomendada como un bocado delicioso para el paladar de un gastronomo.
Poco esto no es mas que nuestra opinion particular, que podriamos espresar diciendo que los Sres. Parry y Ca. conservan muy bien sus carnes.
Fuera de nuestra opinion al respecto, esta la consideracion de que estas conservas preparadas en el Tuyu especialmente para la casa Parry, significan la implantacion entre nosotros de una gran industria nacional, de una importancia tal, que por ser palmaria no necesitamos señalarla; nadie desconoce el desarrollo que ha tomado hoy la industria de conservacion de carnes.
Y si a esto se agrega la clase excelente, la superior calidad de las conservas de que hablamos, tendremos que es proceder con la mayor justicia el tributar un merecido elogio a los Sres Parry y Ca.—*La Nacion*, Abril 3 de 1881.
We have used the corned beef and tongue, and find it as good as the best American canned corned beef, and it is sold at a much lower price. We can fully recommend it to our readers, and we wish the enterprise the success it so well deserves.—*The Herald*, April 8, 1881.
La casa Parry y compania es la depositaria de las excelentes conservas de carnes hechas en la Republica, y que estan llamadas en cuanto la exportacion comience y sean conocidos en en el estranjero una de sus verdaderas fuentes de riqueza.
La casa Parry, la primera en su genero, tiende y ofrece al publico, con condiciones ventajosas, los mas excelentes productos de consumo del pais y de ultramar.—*El Correo Espanol*, Abril 10 de 1881.
Il n'y a rien de plus inconnu a la Plata que les industries qui y prosperent: ainsi hier nous avons entendu parler pour la premiere fois de preparations de "corned beef" (boeuf fume) fabrique dans la province de B. Ayres par MM. McCall et Cie.
Ces Messiers ont installe une usine au Tuyu ou ils fabriquent du "corned beef" en boites absolument semblables comme conditionement et qualite a ceux que l'on exporte des Estats Unis.
Dans la Republique du Nord on a abattu l'annee dernier 308 mille tetes, pour les employer a la fabrication du "corned beef;" il y a la une mine fort riche a exploiter et nous ne voyons pas quelle raison empecherait MM. MacCall et Cie. de lutter avec les Nord Americains.—*L'Union Francaise*, 1er. Avril 1881.
"Corned Beef" de Parry.—Asi como el laborioso de Bagley consiguio en muy poco tiempo derrotar por completo el accreditado fabricante de galletitas Palmer, de Reading y cerrar el mercado a los productos de aquel y de otros fabricantes estrangeros, por la superioridad reconocida de sus galletitas fabricadas en el pais, asi tambien estamos seguros de que las carnes conservadas de los Sres Parry y Cia preparadas en el Establecimiento del Sr. MacCall, en el Tuyu, acabaran por desterrar de nustros mercados los productos estrangeros del mismo ramo.
Tiene forzosamente la elaboracion de las carnes que dar buenos resultados en nuestro pais, por la abundancia, la superioridad y la baratura de la materia prima.
Asi lo han comprendido los Sres Parry y Ca que acaban de introducir en el mercado las carnes conservadas del Tuyu, que, en clase y condicion, pueden competir con ventaja con las conservas americanas y las venceran en menos tiempo quizas que el que creen los mismos Sres Parry, a quienes felicitamos muy sinceramente por la excelente calidad e inmejorable preparacion de su 'Corned Beef.'—*El Comercio del Plata*, Abril 9 de 1881.
We have mentioned before the enterprise of Messrs McCall & Co., in putting up corned beef, which is fully equal to any imported, and which is destined to find a wide market Messrs Parry & Co., when they undertook to put it on the market, were advised to put a label on it which should disguise its origin and make it appear as if imported. With great wisdom they declined this, and boldly put out the fact that Argentines were beginning to prepare for use some of their own abundant resources, and the results have justified the policy, for an adequate supply has been difficult to get, and the merit of the article will keep it going. It is with pleasure that we give prominence to this beginning, hoping that a long list of undertakings will follow this excellent lead—*The Herald*, April 14th, 1881.
Your notice of Messrs Parry & Co.'s Argentine Corned Beef, has made our mouths water. I hope that, unlike the immigration to the Argentine Republic, it will not all remain in Buenos Aires. We are, also, men and brothers, although we live north of the 'Arroyo del Medio.'—W. P., of Rosario.—*The Standard* April 14th, 1881.
EL SISTEMA McCOLL Y CA. PARA LA FABRICACION DE 'CORNED BEEF' EN LATAS.
Estos Sres. dueños de una importante fabrica en Tuyu, han confiado las diligencias de su propaganda a la acreditada casa de los Sres, Parry y Cia, Calle San Martin numero 112, en Buenos Aires.
Asi lo han comprendido tambien los inteligentes industriales que acaban de introducir en el mercado las carnes conservadas de Tuyu, que en clase y condicion pueden competir con ventaja con las conservas americanas a europeas y las venceran en muy poco tiempo.
Es cuestion de precio.
Segun los datos que hemos obtenido se utilizaran segun el sistema McColl y Cia, unicamente la mejor parte del animal.—*La Exposicion de Buenos Aires*, Abril, 1881.

GOV. ROCHA'S MESSAGE.

ABOLITION OF FORCED CURRENCY.

The following Message of Governor Rocha to the Provincial Legislature may be considered as the Requiem of Forced Currency. Seldom has it fallen to us to translate a State paper of greater importance and lucidity, free from the ornate claptrap and fallacies which are too often to be found in public documents when finance is the theme. This paper reflects the highest credit on Minister Uriburu, whose deserved reputation for sound, common sense views will be enhanced by it. That the Legislature will not hesitate in passing the Bill which accompanies this very able Message we do not doubt, and we fully endorse the prediction that the return to specie payments will be much easier and more rapid than is generally supposed.

B. Aires, June 11th, 1881

To the Hon. Legislature of the Province.

I beg to submit to you the draft Bill of the National Government for arranging the debt due by it to the Provincial Bank. I should have done this when the President of the Republic sent it to Congress, but that I wished to submit another for the consolidation of this Government's debt to said bank. These two projectt contribute towards a like end, and it was expedient they should be laid before the Legislature simultaneously, though introduced in different Chambers, as although there was nothing to hinder their being discussed separately, there is a great advantage in jointly considering the plan embodied in them. I have devoted special attention to strengthening the position of the Bank, in order to enhance the value of the paper money and bring it, by a quiet and easy process, to convertibility. This was a debt of honour for the Province, and also a great convenience for its economical and financial interests, properly understood.

The depreciation of the currency not only occasions a proportionate diminution of the wealth of a country, but creates discredit (from the uncertainty it imparts to every other security) demoralization and general poverty, the result of the all-absorbing speculation to which all alike resort 'nolens volens.' The only relatively fixed standard of exchange is specie, and the country that has a currency which daily differs from this standard, and is the subject of speculation, in the long run must lose.

No society can grow rich, or make solid progress in the midst of changes which nullify every prudent calculation. Some imagine that a country can be enriched by inconvertible paper, but we must root out this idea from all minds. In the absence of coin, paper has had its uses, and has enabled us to obtain some of the wealth which we have acquired, not because it was inconvertible, but because, in the absence of anything better, it was the only medium we had for internal exchanges. In the absence of a fixed standard a variable one was advantageous but its variability far from increasing its value, diminished it considerably. Let us then keep our paper money for the facilitating of exchange, but let us relieve it from the reproach of inconvertibility which deprives us of part of the advantages it supplies us with.

Nations do not live isolated, but in the reciprocal and constant interchange of commodities, and it is easy to point out where the advantages will lie when, of two nations, one of them has a fixed standard of value, and the other one subject to every breath of speculation. To the above order of fallacies, and, as a natural consequence of it, belongs another which supposes that the greater the amount of paper received for our products the greater is the wealth of the country. But so long as the greater or less amount of paper does not represent a corresponding sum in specie, its amount is, in reality, a matter of indifference, and it does not give profit to the country, whose products go abroad, because, in return, the foreign products imported do away with the fictitious gain obtained in paper for the products exported.

Though a larger sum is received in paper money for the pound of wool, yet it is returned with usury in the higher price paid for the yard of cloth. All this takes place exclusive of the general influence to which we have already referred, as acting upon each and all of our economical relations. These grave reasons have influenced me in endeavouring to fix the value of our paper money, and, as an indispensable condition thereto, to strengthen the Bank, so as to enable it to fulfil this duty, which is imposed alike by honour and expediency.

With the consolidation of the debts of both Governments, and further aided by the growing prosperity of the country, I think it may be affirmed with every confidence that conversion will be reached with a celerity beyond the most sanguine expectations. Such a result is well worthy of any sacrifice that can be made in order to attain it. Besides, we must not forget that any advantages we may have to resign in order to secure such results are relinquished in favour of the Argentine Government, which is our own Government, that protects us all, and is the safeguard of our independence, our wealth and prosperity. What does it signify if by the law of September 1876 we were to receive money, we now receive instead of it, 4 per cent bonds which, by their quotations in the market, will represent a lesser value? What matters it either, that, whilst being assured of an interest of 4 per cent for one half of the debt, and 6 per cent for the other, we only receive the former interest, and resign the other, which will only bring in another 4 after a future event has been realized, which, by circumtances, might be more or less delayed.

What is the use of our resigning the advantages accorded by that law to our paper of receiving 50 per cent of the National revenues in its written value and excluding every other paper money of the city and province of Buenos Ayres? All this sinks into nothingness in the presence of the great results we propose to obtain by putting an end to inconvertibility and forced currency for both the Nation and the Province within short a time. And, as if this were not enough, we are also about to contribute to the increase of the National income, which is our own treasure, and to increase the credit of the Nation, which is our credit. Since when would the Provincial Bank, and you who are its representatives, wish to appear as mere merchants, with no higher object than mere gain? That is not the spirit that has prevailed in the relations heretotore maintained between that establishment and the National Government, nor that which inspired your resolutions when you opened its coffers to aid the country in times of general difficulty.

Paper was declared inconvertible, the first time, because the National Government was obliged to dispose of the resources of the Bank, to maintain our first national war, after our independence, and its emission has been increased whenever the National Government has had occasion for its help, and, with one solitary and sad exception, for which neither the Legislature nor the Bank is responsible, the Bank has never failed to afford the National Government its valuable aid to evade difficulties and help it to vanquish them. Though Provincial in fact, the services rendered by the Bank have always given it an eminently National character, and this is the highest encomium that can be passed upon it by us, who are proud of being Argentines. In this same law of September 1876, the Bank did not seek to reap advantages from the gains it now resigns, but only to neutralize the evil effects of the steps then about to be taken, to save the tottering credit of the Nation. This was the only object held in view then by the Legislature and the Bank, and now they ought both to be satisfied with the success of their well-timed effort. To-day, then, on seeking to modify that contract, we ought to rest satisfied with the assurance that the new conditions enable us to radically destroy those evil effects by the re-establishment of conversion. It would not be just for the Nation to deny itself the means of effecting this, whilst having them within reach, nor prudent for us to resign them; but the Nation gives us what it can within the limits of its resources, and by accepting that, with what may be done by the Province, we shall arrive at the desired result without doing any violence or wrong. I might have desired something more, had it been possible to obtain it, but it is not, and it is useless to ask for it; we must be satisfied with what we are offered, which, together with our own efforts, will prove sufficient for the ends in view. The Public Bonds offered to us, though of low interest, give us a negotiable security which will obtain for us resources not to be obtained by a simple entry in the books of the Bank, and that is all that is represented under present circumstances by the National Government's debt.

Those securities, included in the public debt, have a certain interest guaranteed, and this, though of minor importance, is, nevertheless, another resource. Conversion being left to the prudent discretion of the Bank obviates every evil which might be feared as the result of any violent measure. The use of the emission may compensate us partly for the advantages relinquished, without costing the nation a dollar, and this also is an advantage to us, because what is thus saved by the nation will be used for our common good. Finally, the continuation in circulation of Provincial Bank notes, in all the National offices of the Republic, for their market value, though it be an advantage enjoyed without any compensation being returned by foreign money, is none the less an advantage for the Provincial Bank, which we ought honestly to acknowledge.

As a final consideration, let me remind you that since this project, if it becomes law, is destined to hasten the time for the reopening of the Oficina de Cambios, you ought not to defer an event of such magnitude for any secondary considerations, giving up one of the most honourable claims you could have on the consideration of the public.

I trust that on carefully considering the subjoined bases, and inspired by lofty and patriotic views in reference to the great interests dealt with in this project, you will find sufficient reasons for sanctioning it.

DARDO ROCHA,
Carlos Uriburu.
Carlos D'Amico.

THE WEST-COAST WAR.

BOLIVIAN VIEW.

We have been favoured with a copy of the pamphlet published by the Bolivian Legation on the war on the Pacific coast and the Argentine attitude before and during the unfortunate campaign of the Allies. The scanty pages of the pamphlet afford many interesting lights as to the policy pursued by the various Governments and the more or less ambiguous means that led to the final catastrophe at the gates of Lima and on the banks of the Rimac.

The first chapter enters on the preliminary condition of international politics between Chile and the Argentine Republic; but, for the better information of the public, aside from the responsibility of our statements, we will quote the author:—

"It may be safely asserted that the storm which threatened the Argentine horizon veered towards Bolivia and Peru, bearing destruction and ruin before it. In 1878 the relations between the Argentine Republic and Chile were very strained; the latter Government had disapproved of the Elizalde and Barros Arana Treaty: meantime, both Governments had withdrawn their respective Legations.

"This delicate situation ended in a crisis, compromised by two important events: the hostile attitude of Chile and the seizure of the Devonshire. The Santiago newspapers had published documents proving the legitimate right of Argentines over Patagonia, which so much excited the rabble that troops had to be moved to repress disorders and riots. The news of these hostile manifestations reached the Argentine Cabinet at the same time as the notice of the seizure of the Devonshire, which had Argentine permit to load guano, north of the Santa Cruz. The Argentine Minister of Foreign Affairs referred to these events as follows:—'The hostile manifestations of the Santiago mob preceded the capture of the Devonshire and daily increased a spirit of provocation towards the Argentine Republic, which had even submitted to a discussion of her legitimate rights over Patagonia.' But the Argentine Government resolved to adopt measures which would put a stop to any further aggressions, and the National squadron received orders to prepare to sail for the mouth of the Santa Cruz River.

"On the 25th of November the fleet arrived safely at the Santa Cruz River. This decided attitude of the Argentine Government produced the very best effect. The impression was great on public opinion in Chile, but soon the clamor was general that the Chilian vessels should meet the Argentine in Santa Cruz. The Ministers, in order to appease the people, ordered the fleet to sail, and some vessels reached Sota and Coronel, but they very well understood the difficulty and hazard of attacking the Argentines, far away from their base of resources and operations. It thus happened that the Chilian squadron did not dare to enter the Straits. Nobody could explain the phenomenon, and the Chilian Government was bitterly attacked on all sides. The wrath of the people assumed daily larger proportions.

"Meantime the diplomatic movements in Bolivia had entered on a new phase, which allowed of a violent and daring change. An evolution was possible, and the current of popular commotion could be directed into other channels. A telegram notified the Commander of the Blanco Encalada to put on full steam and move with all rapidity to the harbour of Antofagasta. Preparations were made in all haste to facilitate the landing of troops, and, to the astonishment of all who studied the situation, the whole Bolivian coast was occupied by surprise and in the hands of the Chilians."

The details of the occupation and of the preceding negotiations, and the causes of this violent step, will be considered in a separate chapter.

THE INDIAN RAID.

To the Editor of the *Standard*.

Sir,

Having heard a good many conflicting accounts of the late Indian invasion I went over myself last week to Carhue to ascertain as far as possible how matters stood, and the following is what I have been able to gather from reliable sources.

Can be used with COLD WATER. Sole Agents **MOORE & TUDOR.** **Maypu 95 and 127.** **Beware of imitations and falsification**

The Indians first appeared before Puan in the morning of Sunday 5th inst, and early on Monday morning a detachment of 60 soldiers was ordered down from Carhue, and had already arrived in Puan when the Indians began to move. The Indians, finding they could do nothing at Puan, commenced their raid inside, following the stream of the Pique as far as the Sierras of Curumulan. They then started the edge of the Sierras almost to the fortin 27 de Deciembre, the troops all the time following at a respectful distance, as the officer in command did not think it wise to attack them. When the troops arrived within reach of the Fortin they were joined by about 50 men, collected from among the neighbors and the Policia.

The Indians upon this commenced retreating outside, with the mares which they had gathered amounting to 1,500; the troops following them until they had crossed the frontier line about 10 leagues south of Puan, where the troops left them, and returned to Carhue. It is almost certain that they took away one woman captive and three children, and killed at least 5 or 6 people in the course of their raid. It is also feared that the 'tame' Indians of Puan and Carhue, who at the time were outside 'boleando' ostriches, have all been killed, though Pillahuinca, their chief, fortunately happened to be in Puan. It is rumoured that the movement against Puan was in reality directed against this chief and his followers.

From what can be gathered the band of invaders consisted of about 130 Indians and 80 'gauchos malos' and deserters from the army, these last almost all armed with rifles.

This, as far as I could learn, is the extent of the invasion, serious no doubt in itself, but also showing the real weakness of the existing Indian element, and I for one believe that the vigorous measures now taken by the Government are fully sufficient to guarantee present security, and that with proper vigilance there need be no repetition of similar disturbances. In my opinion the Government used a wise discretion in suppressing (as I have heard) a good many alarming telegrams, based on insufficient grounds, and, though possibly sent with good motives, calculated to do more harm than good.

EDITOR'S TABLE.

The Sun was warmly welcomed yesterday (on and off 'Change) on its reappearance, after a fortnight's absence. It just conquered the clouds in time to see the passengers by the R.M.S. Mondego off to old England. There was a large gathering of friends at the Central Station to see Father Martin and Mr and Mrs Carthy off. The river was delightfully smooth, and the run to the Outer Roads must have been pleasant enough.

On high naval authority we hear that the final conclusion come to as to the cause of the disaster to H.M.S Doterel is that the magazine exploded. The after part of the vessel is almost uninjured, whereas of the fore part there is not a piece 20 feet long to be found; all blown to bits. H.M.S. Garnet is expected at Montevideo in two or three days.

There was nothing fresh from Montevideo yesterday, although some rather serious rumours were afloat, but there are always rumours afloat about poor B. Oriental. The latest telegrams say that Latorre has left Yaguaron, it is generally supposed for Pelotas, and Colonel Santos was expected back in Montevideo yesterday. The Constitutional party are all afraid of an invasion by Latorre, and perhaps they are not far out.

The report that the Captain-General of Ports is about to resign is all balderdash. Mr. Mansilla is the right man in the right place.

The Provincial Commissioner to Australia, to study the wool industry and system of the great British colony, will start for Melbourne at the end of the month, but his name has not yet been officially announced.

People want to know what on earth is the matter with the Cabildo clock? It goes fast and goes slow, is right about twice a week, and is playing fast and loose with the public. When Mr. Barrera had it in hands it used to keep splendid time, and the sooner he gets charge of it again the better.

The National Government is now preparing a Bill authorising the sale of all the Municipal property possible, to pay off all the debts of the Corporation and put it properly on its feet, a luxurious position it has never yet enjoyed.

We are requested to say that the raffle of the 'Hermanas de Dolores' of Belgrano comes off to-day at one o'clock, at No. 60 Calle 25 de Mayo, corner of Rivadavia.

Messrs. Christophersen and Co have proposed to the National Government to start a line of steamers between this port and New York, for a subsidy of 8,000 patacons the round trip. Such a much-needed service would be cheap at the money.

The French steamer Niger brings no later dates, and her only item of news is that it was the Fenians who blew up the unfortunate Doterel at Sandy Point! What next?

Our colleague, *La Republica*, will have a Bell telephone and a Locht pantelephone in its office on July 1st. We hope our contemporary will like it. We neither have, nor will have, either one or the other, as we could not, if it were to save our precious life, get through one syllable more talking in the day than we do, to say nothing of the writing, and wont expose ourselves to be hailed at all hours of the day from all quarters of the city, by unreasonable subscribers who get their paper too early in the morning, or too late, or who dont get it at all, or by general readers who want to chat about the state of the weather. If we can manage a telephone exclusively for the enrolment of new subscribers we'll do it, but for nothing else.

A lot of prisoners are about to be drafted into the army from the Penipentiary; for service on the frontier. This is just the way how not to do it. It is this wretched system that brings about the scenes that we have lately read of at Puan and Sauce Corto. These criminals, the moment they get to the frontier, will desert on the first opportunity and swell the ranks of the miscreants who committed the late atrocities and are always ready for fresh ones. It is a cruel and undeserved insult to the army to put criminals in its ranks, except in a special corps to themselves, with extra power to the officers to deal with them, and extremely severe discipline. Before President Roca is much longer in office we hope to see some reform made in this respect, and the honest and brave soldiers of the army relieved from the society of criminals, for whom a 'Belem Rangers' corps should be instituted.

Another gang of deserters and 'bad gauchos' has turned up at Las Toscas, eight leagues from Olavarria Colony. There are 18 of them, all carrying blunderbusses and wearing red Biscayan bonnets. It is time for a general 'battue' of all these ugly customers down South.

This will be a special day at the Boca, as the members of the Committee of the National Chamber of Deputies that has Mr. Fair's Dock scheme under consideration are going down there to lunch and look about them.

We should like to exchange with our valuable and well-edited colleague *La Razon* of Tucuman. We hear it is the best provincial paper in the whole Republic.

All the Welsh emigrants who recently arrived here are men of more or less means. One of them brought out at his own expense all the machinery for a cloth factory on a small scale, to supply all his countrymen in the South with good broadcloth, made from the wool of their own sheep. We'll wager a trifle that this cloth factory will pay better and be better managed than the big one in Paseo Julio, which has given its shareholders such chronic headaches.

It was announced yesterday that Colonel Plaza Montero's splendid land concession at Curumalan has been successfully negotiated in the London market.

We were obliged to decline yesterday the nucleus of a new museum—the skeleton heads of three penguins from the Straits, a king, a jackass, and a rock-hopper penguin. Strange to say the jackass has the best cranium of the lot.

We give in another column a late and reliable account of the recent Indian raid. The writer is an English estanciero at Guamini.

Aida is repeated to-night at the Colon Theatre. The door in Calle Rivadavia is to be thrown open for the future, to allow of easier egress from the theatre.

A cartman fell under his vehicle yesterday in Calle Rivadavia and one of the wheels passed over his legs. The passers-by rushed forward, thinking he was smashed, but he jumped up, gave his shins a rub, and resumed his seat. We would not like to be opposed to this individual in a football scrimmage.

The Progress Club ball expected this month has been postponed till August, as the floors are rather shaky and require propping before anything more in the 'light fantastic toe' line can be attempted on them.

The gold market opened to-day under the influence of yesterday's loan business effected by the Provincial Government with the River Plate Bank, and which we announced in our stop press. The business was in every sense a pleasant surprise to the market, since the general impression was that a German house was in treaty for the business at 26. The whole market congratulates Mr Todd, the talented manager of the London & River Plate Bank, on so brilliant a business; 6 o/o Bonds with such guarantees as the Riachuelo loan are no longer to be had in this market at 90. The interest rate henceforward on Argentine Bonds will be 4 o/c, nothing over.

The buyers of gold yesterday afternoon at 27 and 27.05 were so much surprised by this Riachuelo loan that they sold right and left to-day. One party sold in one lot 200,000 pats for the end of the month at 26.60, and the buyer turned round, resold same in smaller lots at 26.65 and so on the day throughout. One million three hundred thousand pats for the end of the month were bought and sold so, and so complicated now are the accounts for the month that no one knows how the liquidation for the month stands, but all know how the current runs, and all have a stand-from-under feeling for next month.

Gold opened at 26.75, dropped to 65, and closed at opening rate; 261,000 sold cash. For the end of July there is a great speculation for a fall, close on 800,000 sold, opening at 35.45, rising to 50 and closing at 40, and for end of Dec, 26 is the price marked, yesterday in conjunction with other months 26.60 was the price. The sales of the day amounted to $f. 2,636,050 pats. If things were as they ought to be, 20,000 pats gold would have been more than enough for the market.

The bears in the Cedula market appear to have turned round; prices have gone back to 99 cash, and 98½ for end of month; whenever the cash price of this stock is higher than on time one knows at once how the market stand.

National Bank Shares somewhat firmer, for the end of month 98½, and for July 99. Provs. Bonos 6 prem. Roads and Bridges 4 prem., and old Gas Shares 1800 m/c per share.

Mr A G Goodall, President of American Bank Note Co, New York, was enveloped in friends when he entered the Bolsa; all his old friends were delighted to see him, he comes in the nick of time and will doubtless do a large business.

The Mondego cleared to-day taking a very heavy mail, and at the Central Station Mr and Mrs Carthy and friends and Rev. Mr Martin left for Boca. We wish them all a pleasant trip and hope to see them soon back.

Gov. Rocha's message to the Chambers we give in another column; it is a very able paper, and the whole market praises it. Many of our leading merchants called to-day on the Governor to compliment him on it. The document speaks for itself, and has created a general conviction in the market that 'corso forsoso' in this country for many years to come is doomed.

The Committee of the Deputies has despatched the Romero project most favorably; the only amendment proposed is, to make it compulsory for the bank, in case that the premium on gold does not decline, to burn a half a million of pats every month. The Achaval project we hear, is to be withdrawn.

Messrs M Forrester & Co. of this city received telegram from Mr Matthew Forrester at present in London of the successful negotiation in that market of the Curamalan lands. We much congratulate Mr A Plaza Montero on this splendid business, which gives him a clear profit of 300,000 pats. gold. The sale of the Curamalan lands by Mr Forrester means very much for this country, it is the first business of the kind ever done here or there, and will lead to a fresh stir in the camps of the South. Bahia Blanca lands will be much improved by this business.

Gold at afterhours ruled weak, and not withstanding all the efforts of the bulls prices could not be sustained; the more closing up of speculative sales for the end of the month is all that holds the ring together, but gold business is fast dropping away, and when 26 is reached which is not far off, then the margin will be too small to induce speculation; brokers must then go into Cedulas and Bank shares; by a liquidation contingency gold remained over this afternoon; an auction was called and 10,000 sold cash at 26.65 at which price the market closed.

In Cedulas prices firm, buyers for end of month at 98⅝, about 120,000 sold. Nat. Bank shares a great push made against the stock, prices, however, closed firmer at 98¾ and 98.

Minister Uriburu's scheme for paying off the Priv Bank will be published to-morrow; the Minister proposes to pay the Bank 12 millions pats in sterling gold bonds at 6 per cent and 1 amortization, of course when the very Government of the Province offers to pay the Bank not in paper dollar bonds but gold sterling bonds, one can see what tremendous changes are coming over the market.

We have received a letter about the Plaza Once, which we hold for our next.

We publish at foot a letter from Mr Taylor, correcting our statement about the 3,000 leagues concession of land asked for. We learn on good authority that Mr Taylor will soon start the Company of the Gran Chaco Railway.

The interest taken in everything Argentine in the London market may be gathered from the following letter, which appeared in the London *Telegraph*, May 20th, and shows us how we can save money by raising a new loan; the following is the letter:—

"To the Editor of *The Daily Telegraph*,
"Sir,

"If, as there is now good reason to hope, the Argentine Government returns to gold payment of its Hard Dollar Loans and satisfies the claims of the guaranteed railways, there can be no doubt that the whole of the debt outstanding could be funded into a six per cent gold dollar loan, which could be issued at par, redemption at option of the Government. This operation would save the country just one-half of what it now pays for interest, as you will see by enclosed table. The present charge on the funded debt is approximately £1,269,000, and it would be reduced to £626,764. I may mention that the amount saved by paying in paper instead of gold is now under £20,000 a year.

"Your obedient servant,

The following late news about the Antwerp produce market, from Messrs Bunge & Co. of that city, under date May 19th, 1881, is important:—

Wool—
The market has since we last reported been quiet and transactions are moderate, demand only existing for immediate wants; although prices being lower than what they have been since long, buyers do not yet seem to have sufficiently confidence to operate on a larger scale and expect lower rates still, taking as an argument the heavy stocks, which bear on nearly all the markets as well in England as on the continent.

The following is now our statistical position:—

	Bales.	
Stock on 5th May, 1881		26,876
Arrivals from Buenos Aires	6,696	
" Montevideo..	933	
" Rivers	54	7,683

Public sales in London opened on 10th inst. in presence of a good number of buyers, competition was fair and prices of last auctions kept their own for Australian wools, whilst Capes were sold at a decline of from ½ to 1 penny. Home buyers remain rather inactive, foreign, however, operate more freely. Thus far the sales progress in a satisfactory way and the opening prices are maintained; notwithstanding this it is doubtfull whether they will be so until the close of the series, the quantity to be offered say about 372,000 bales being too large to be disposed off as long as trade does not improve.

In Havre the public sales opened on 17th instant, prices have declined 5 to 10 centimes, as compared with those paid before the auctions, which is about the parity of last sales rates. Animation was good and of 2,194 bls offered 1,095 bls. have been sold.

The second sitting, however, went off with less spirit, prices were irregular and even weaker for River wools which, as well as Montevideos have been neglected. Of 2,259 bales offered only 556 bales could find buyers.

Sheepskins—
Have been somewhat neglected, and prices are weakening.
Sales only 13 bales.
Stock, 713 bales.
Hides—
We have had a rather better demand for this article during the period under review; having had some new arrivals, our stock has increased and now offers again a better choice to buyers. There is still a lack of confidence to operate largely, but it is generally expected that we shall see better prices, should the deficit in the killings continue to increase.

There is scarcely any demand for dry hides, and transactions of this description have been unimportant; prices, however, are about unchanged.

The following, Liebig's second cargo, has been sold to arrive with f.l decline on prices obtained for the first cargo sold two months ago—

Veritas, 10,000 Uruguay saladero ox, 61-64 lbs., at fs.75 for heavy, and fs.69 for light.

Killings in South America on 15th instant amounted to 952,000 head against 1,295,000 head at the same time last year.

Tallow—
There is nothing to report; no fresh supplies having reached our market, which thus remains bare of stock. Demand being active; beef would fetch fs.89 and mutton fs.87.

More activity has been felt in the freight market for sailing vessels, Messrs Tomkinson Du gey & Co. having engaged in these days 2000 bales for Dunkorque, at 13 frcs. for the Italian barques Eufemia Dangraro and Schrafino, the same firm have also effected the charters of the Ita. barque Amabili Catanna, to load tallow in Paysandu for orders at 31 frs. and 10 per cent, and American barque Don Jacinto, to load peanuts in Santa Fe for Marseilles in 20,000 frcs.

We have received the following for publication in this column:—

GRAN CHACO RAILWAY.

B. Aires, June 14th, 1881

To the Editor of the *Standard*,
Dear Sir,

Having noticed in *The Standard* of this date a paragraph in your "On 'Change" article, to the effect that the concessionaire of the proposed Gran Chaco Railway had applied to the National Government for a concession of 3,000 square leagues of land, I hasten to correct the statement in question, as calculated, unwittingly of course, to mislead your readers.

The legal representatives of the ONLY concessionaires of the 'Ferro Carril Gran Chaco' are at present W H Taylor, Dr Dn Ramon Gil Navarro, and Dr Dn Pedro Palacios; and in my partners' name, and my own, I beg to assure you that we have asked for no such concession as that you refer to; furthermore we are ready to sign the contract for the construction of the Gran Chaco Railway when called upon by the National Government to do so, in accordance with the law of 15th October 1873, granting us the concession for the railway in question.

It is quite possible that some would-be concessionaires have asked for the grant you mention, but if so, I repeat, that the holders of the Gran Chaco Railway concession have no connection with nor knowledge of such a proposal.

I am,
Yours truly,
WILL H. TAYLOR.

Importantisimo, leer esto

La practica nos ha enseñado, como tal mismo las indicaciones de nuestra amistosa clientela, que no debe lanzarse a remate ninguna propiedad de cuya bondad de titulos no tenga la casa confianza y seguridad absoluta, por cuya razon hemos trabajado mas de dos meses hasta reunir toda la documentacion necesaria para presentar en venta esta zona importante de tierra, sin que los interesados tengan neces dad a pedir datos.

Hemos impreso un folleto, que contiene; 1º El plano de Santa Fe y su vecina Santiago del Estero. 2º El informe del Gobernador de la Provincia, declarando "ser propiedad de los Canepa el campo a venderse, acompañando copia legalizada de la ley que autorizo la venta y reconociendo el derecho a su enagnacion. 3º Carta del Señor Obligado que ha recorrido los campos durante anos) determinando su ubicacion, buena calidad, ventajas de su adquisicion, condiciones, etc. etc. 4º Planos del campo a venderse, con determinacion de lotes y la ubicacion de todas las importantes colonias con que se avecinan. 5º Nomina de los linderos y establecimientos importantes inmediatos. 6º Informe escrito del estudio hecho de todos los documentos y titulos por el acreditado escribano Sr. D. Victoriano Cabral, que los declara inmejorables; finalmente todo lo pertinente al conocimiento de lo que debe adquirirse,

Este folleto, asi como las entradas para el lunch, se entregaran en nuestra casa a las personas que se dignen venir a solicitarlo.

Pormenores

Estos campos distan solo 5 leguas de las colonias Sunchales y Espin [suizo] y 7 o 10 de las estancias de Escalada, Ramayon, Coronel Obligado y hermano, Dr. Pedro Palacios, Banc de Londres, Coronel Lacueva, Coronel Jabson. Lindan a mas con los Srs W Paste y Ca, Dr Lawsen, Meyer, Ozoiza, Duchwitz, Altgelt, Napp, Loissoau, Bonorme, Newton, Mulhell y otros, que adquieren en la misma forma hacen diez anos.

La traza del ferro carril de Santa Fe a Santiago, cruza estos campos y se radicara una o dos estaciones en ellas.

Con la base fijada, no se habran puesto en venta campos mas baratos y si se habran adquirido jamas mejores como calidad, pues el Sr Coronel Obligado dice en su informe que son SUPERIORES a los del Sud de Cordoba y a los del Departamento del Rosario.

Hay campos linderos, que se han vendido (y mostraremos el certificado) a 3000 $fts. la legua.

En la colonia Espin, donde existen mas de 150 familias fundada por el Sr Benitez, se venden las concesiones a 206 $fts de solo 20 cuadras, luego la legua ha producido ya mil onzas de oro, en 80 concesiones.

Los campos estan mensurados judicialmente perfectamente amojonados con grandes postes de naudubay.

Hoy dia, la casa bancaria de los Srs Murrieta en Londres, esta recibiendo los campos del Chaco, del Gobierno de Santa Fe, en pago del emprestito a razon de 1600 $f. por legua, y estos son superiores y mas cerca de la capital.

Para terminar: la familia Canepa, es propietaria en el Rosario y esto redobla la garantia.

Por informes, folletos, planos etc, a nuestra casa San Martin 51. x106 j6
